I am opposed to putting Beazer Homes or any residential homes in the southwest corner of Springmill Road and 169th Street. Springmill Road needs to become a 4 lane road in order to handle all of the residential traffic that currently exists as well as the traffic which will undoubtedly come as a result of the Grand Park development.

I am very much opposed to the further residential development at Springmill Road and 169th Street.

Something needs to be done with Springmill Road, it needs to be widened.

Something especially needs to be done to the intersection of 169th and Springmill Road. Traffic is increasing, and with the Grand Park development traffic will increase even more on Springmill Road.

You need to focus on what you are going to do with the roads before adding more homes and businesses.

Your consideration is appreciated.
